Mr. Carlos Vega  
Consolidated Edison Company of NY, Inc.  
4 Irving Place  
New York, New York 10003

Mr. Sean Connolly  
PSE&G  
4000 Hadley Road  
South Plainfield, NJ 07080

Dear Mr. Vega and Mr. Connolly:

This letter is to inform you, the responsible parties, that pursuant to section 311(c) of the Clean Water Act the Environmental Protection Agency's (EPA) has made the determination of the completion of the removal action regarding the discharge of dielectric fluid from the B3402/C3403 Marina Spill located in the Newport Marina in Jersey City, Hudson County, New Jersey. The marina is located on the Hudson River, a navigable waterway of the United States.

The Federal On-Scene Coordinator (FOSC) has evaluated the magnitude and severity of the discharge or substantial threat of a discharge of oil. Based upon this evaluation, and in consideration of the current state of the subterranean transmission feeder line, and the response activities already undertaken by the property owner, responsible parties, New Jersey Department of Environmental Protection (NJDEP), the United States Coast Guard and EPA to date, the EPA has determined the removal action to be complete.

This letter in no way relieves Consolidated Edison Company of New York, Inc. or PSE&G from any further actions required by the NJDEP.

If the current situation changes or the current state of the subterranean transmission feeder line changes, please notify the FOSC.

If you have any questions concerning this matter please do not hesitate to contact me at (908) 421-2628.

Sincerely,

A handwritten signature in blue ink that reads "Kelli Lucarino".

Kelli Lucarino  
Federal On-Scene Coordinator  
U.S. EPA Region 2  
Edison, New Jersey
